

# LAW ENFORCEMENT TRAINING SOLUTIONS

## Meet the increased training responsibility for your law enforcement officers ... **now.**

From de-escalation of force and countering active shooters to people in crisis and implicit bias, InVeris provides integrated virtual and live-fire training to prepare your officers for today's most stressful challenges.

The challenges facing law enforcement officers have never been greater. As they perform their duties, their first thought must be to protect the community and their own safety, regardless of what they confront. Fortunately, InVeris Training Solutions provides the world's most advanced virtual and live-fire technologies to prepare them for the unexpected.

**How InVeris encompasses comprehensive training for your officers:**

# Changing training requirements is why **NOW** you need the most advanced integrated virtual and live-fire training solutions.

Every patrol and call tests the mental and physical readiness of your force. That's why they need training that ensures sound de-escalation of force as well as 3D-tested marksmanship and immediate instructor feedback. InVeris uniquely combines unprecedented experience in virtual and live-fire training so your officers can confidently act when seconds count.

SAFETY, SO OFFICERS  
— **CAN ACT** —  
WHEN SECONDS COUNT

**All new! Immersive virtual reality + true-to-life scenarios ripped from today's headlines.**

**Introducing  
VR-DT: Virtual  
Reality Decisions  
and Tactics.**

**ALWAYS HAVE THE  
LATEST TRAINING PLATFORM  
FOR REAL-WORLD SITUATIONS**

# Our FATS® heritage: the gold standard for virtual, law enforcement training.

In 1984, Firearms Training Systems (FATS®) transformed the law enforcement industry with the world's first simulated training system.

Today, we continue to take virtual training to the next level. Our five-screen FATS® 300LE and three-screen FATS® 180LE immerse officers in the action with hundreds of realistic scenarios, adhering to departmental protocols. ▪

Our simulated BlueFire® wireless weapons maintain the same form, fit and function of an officer's duty weapon.

And our FATS® 100P offers a portable virtual system you can take anywhere.

SAFETY, SO OFFICERS  
— **CAN ACT** —  
WHEN SECONDS COUNT

**The state-of-the-art shooting range:  
rugged, reliable and innovative.**

**95 years ago, our legacy company, Caswell International, created the  
modern-day shooting range.**

We continue to pioneer these efforts with turnkey planning, construction, equipment and installation with our innovations in target carriers, bullet traps, shooting stalls and other ballistically minded features.

MORE THAN,  
**15,500**  
LIVE-FIRE RANGES FIELDDED.

# Whether you're designing or upgrading your gun range, contact us **before you start.**

Our one-stop, end-to-end turnkey services ensure a state-of-the-art facility for the best value.

- From understanding requirements and design to installation and support, our experts will provide everything your trainees need: **the right equipment in the optimal configuration for indoor, outdoor and tactical purposes.**
- We'll further assist you in addressing the major concerns for a successful range: **location, legal compliance, equipment acquisition, environmental concerns, ventilation and more.**

All along the way, you have the confidence of relying on one vendor and one contract, accountable to you for every aspect of the project.

**WE LISTEN**  
**WE ASSIST**  
WE ARE WITH YOU

# InVeris supplies everything your shooting range needs for safe live-fire training.

Invest in the safety and reliability of your officers with proven state-of-the-art equipment.

InVeris continues to define the modern shooting range for today's law enforcement officers.

- Our turning targets add a new element to tactical scenarios, exposing and concealing for multiple angles.
- Our flexible **Safe Zone™** shooting stalls not only protect your officers, but also improve their performance.
- Our ballistic baffles and guards provide a safe, noise-absorbent environment.
- Finally, for lead abatement, our cost-effective ventilation systems remove airborne lead and circulate clean air while our **GranTrap™** granulated rubber trap captures bullets predominately intact, reducing lead dust.

The result is a safe atmosphere, where trainees can confidently hone skills.

**DYNAMIC, FLEXIBLE  
NOISE-ABSORBANT  
AND SAFE**

## **Back your officer training programs with 24/7 global customer support.**

InVeris Training Solutions combines an agile approach with unmatched expertise in training technology. With our legacy companies, FATS® and Caswell, we have fielded over 15,500 live-fire ranges and 7,500 virtual trainingsystems globally during our 95-year history. As a result, we can design and deliver customized, cutting-edge, training solutions that keep your officers prepared — Because Seconds Matter™. As the global leader in integrated live-fire and virtual weapons training, everything we do is in service of the people who keep us safe and secure.
